V. READING: 1. Read the passage and answer the questions:

There are two categories of newspapers: the popular and the quality. In order to decide whether a newspaper is a quality or a popular one it is not even necessary to read it, since you can tell simply by the way it looks. Popular papers are generally smaller with fewer columns per page. They have bigger headlines and more photographs. There is a greater variety of typeface and printed symbols. The articles are shorter and there are fewer per page.

Such devices are not only used to make the paper more attractive; they may also influence what the readers reads. Lager headlines, pictures and position on the page all serve to draw the reader's attention to one article rather than another.

Since popular newspapers have a much larger readership than apparently more neutral quality papers, it may be fair to conclude that the average reader not only wants to be entertained by a

newspaper but prefers his reading to be guided and opinions given to him.

2. Read the passage below and answer the questions

When robots are widely used in the home, they will probably be used to do the cleaning, table - laying, scrubbing and washing- up, but it is considered unlikely that they will be used to do the cooking - at least, not in the near future.

In factories, mobile robots are already used to carry out a large number of the distribution and assembly tasks while human beings carry out research and produce plans for new products. Among the numerous jobs on the farm, robots will drive tractors, keeping **their** eyes on the ground in front to guide the tractor along a straight line.

The majority of the robots used at present do not look like human beings at all because their design is chiefly functional.

1. The word "**their**" in paragraph 2 refers to

a. Robots' b. Tractors' c. Farms' d. Peoples'

2. Why don't robots at present look like human beings ?

.....

3. Which of the following statements is **Not true** about robots ?
